STUDIO TATE

CONGRATULATIONS!

WE ARE EXCITED TO SHARE SOME
“TIPS AND TRICKS”
TO HELP YOU FURNISH YOUR NEW HOME.

- 1. AUDIT YOUR EXISTING FURNITURE, SELECT THE KEY PIECES FOR REUSE**
- 2. THINK ABOUT YOUR FUNCTIONAL REQUIREMENTS**
- 3. CONSIDER LEAD TIMES FOR NEW FURNITURE ITEMS AND/OR ARTWORK**

Consider stools with backs and a swivel for comfort and ease of use. Test them to ensure stability

Breathe life into existing pieces with new upholstery

High back chairs are both comfortable and supportive, consider a footstool

Mirrors are great to bounce light around the space and reflect the sky/ outdoor planting

Don't be afraid to mix old and new - for example pairing an existing dining table with new chairs

Seat height is important. Source options with either a higher seat or the ability to adapt to suit

Mixing upholsteries in a considered way can bring a layer of interest, warmth and fun!

Ergonomic desk chairs don't have to look too corporate.

Mechanical beds
can be made
attractive with an
upholstered
bedhead

Consider using
a slightly higher
nightstand for ease
of use

Artwork selection
brings personality,
colour and special
memories

Different spaces can have different palettes, don't be afraid of colour!

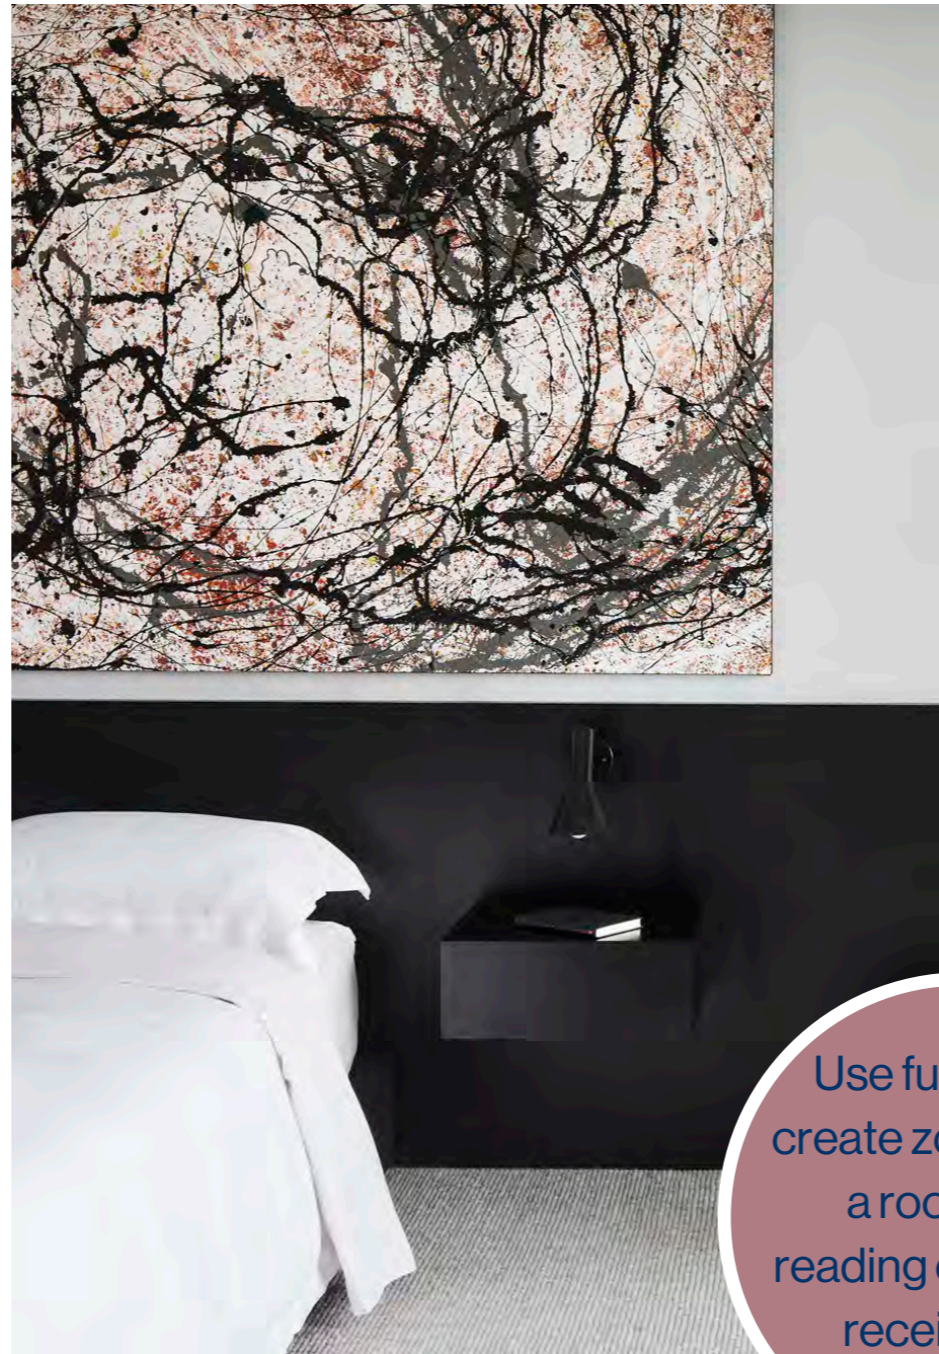

Use floor and table lamps to provide indirect lighting and create mood

Rugs can be trip hazards - ensure they have an anti slip underlay

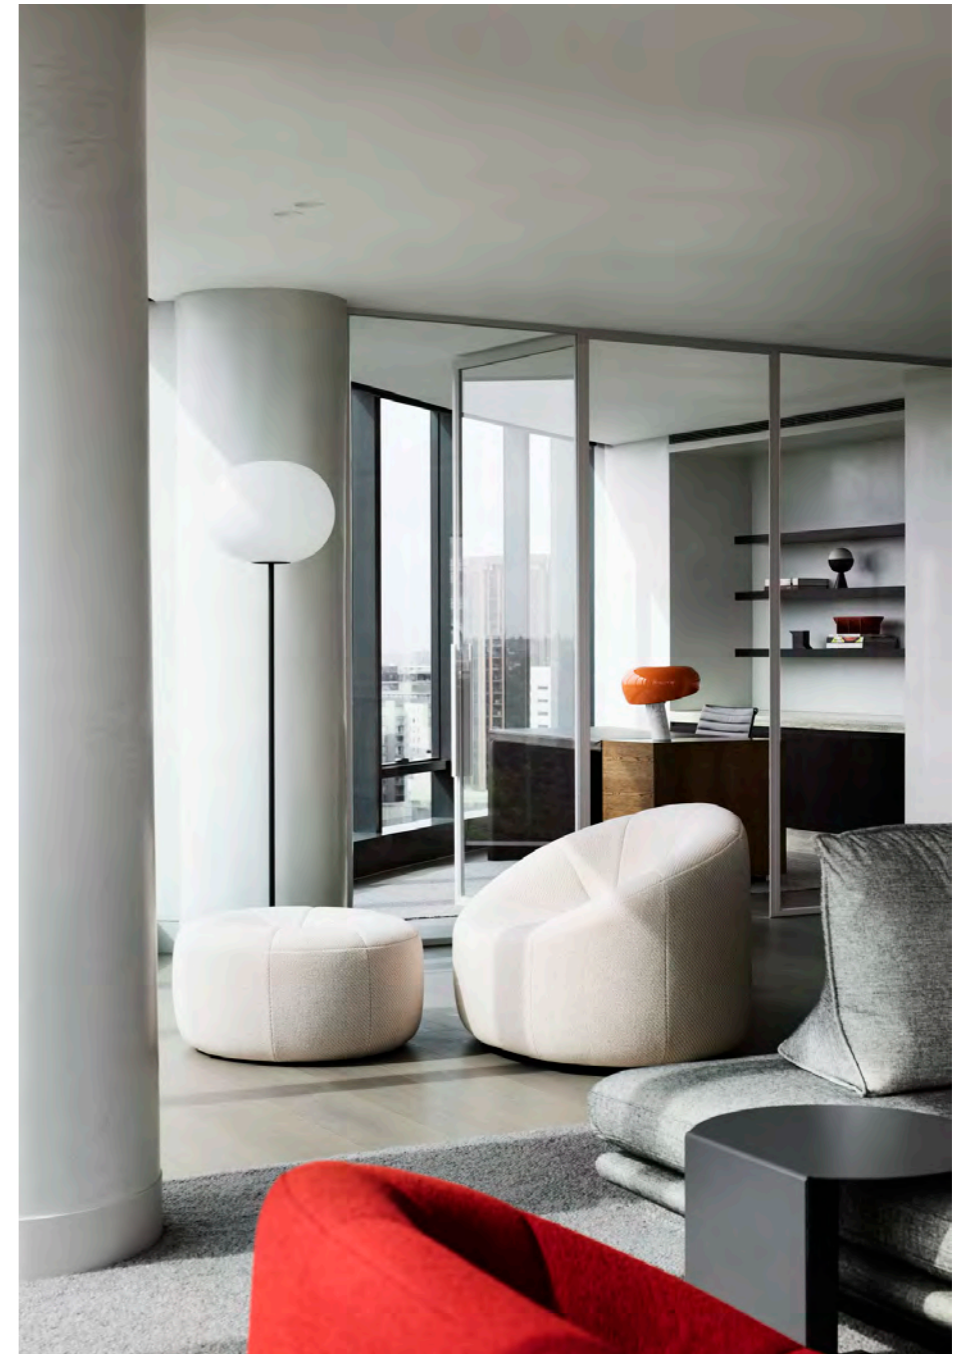

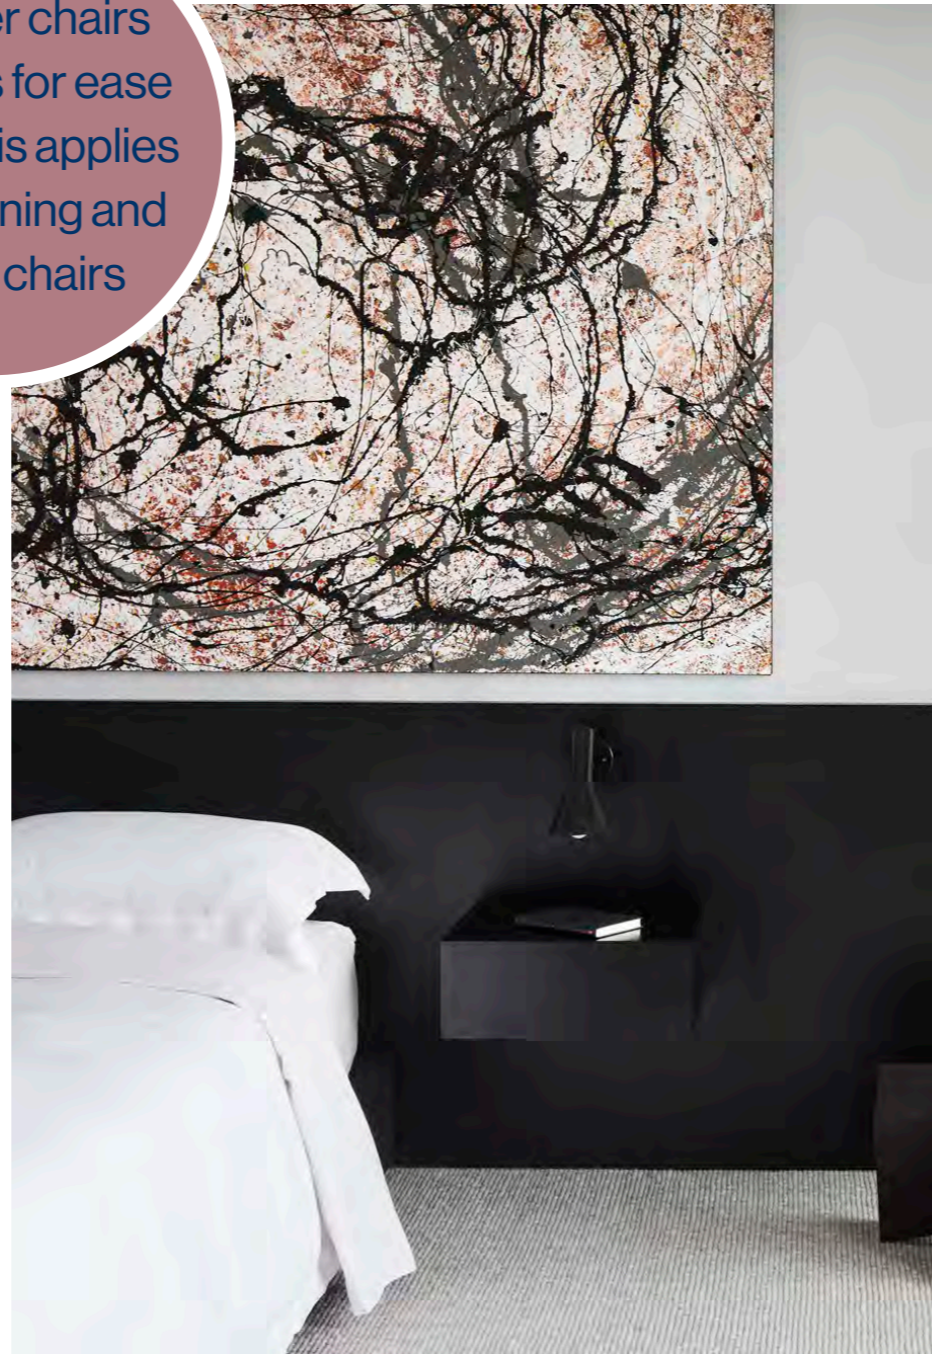

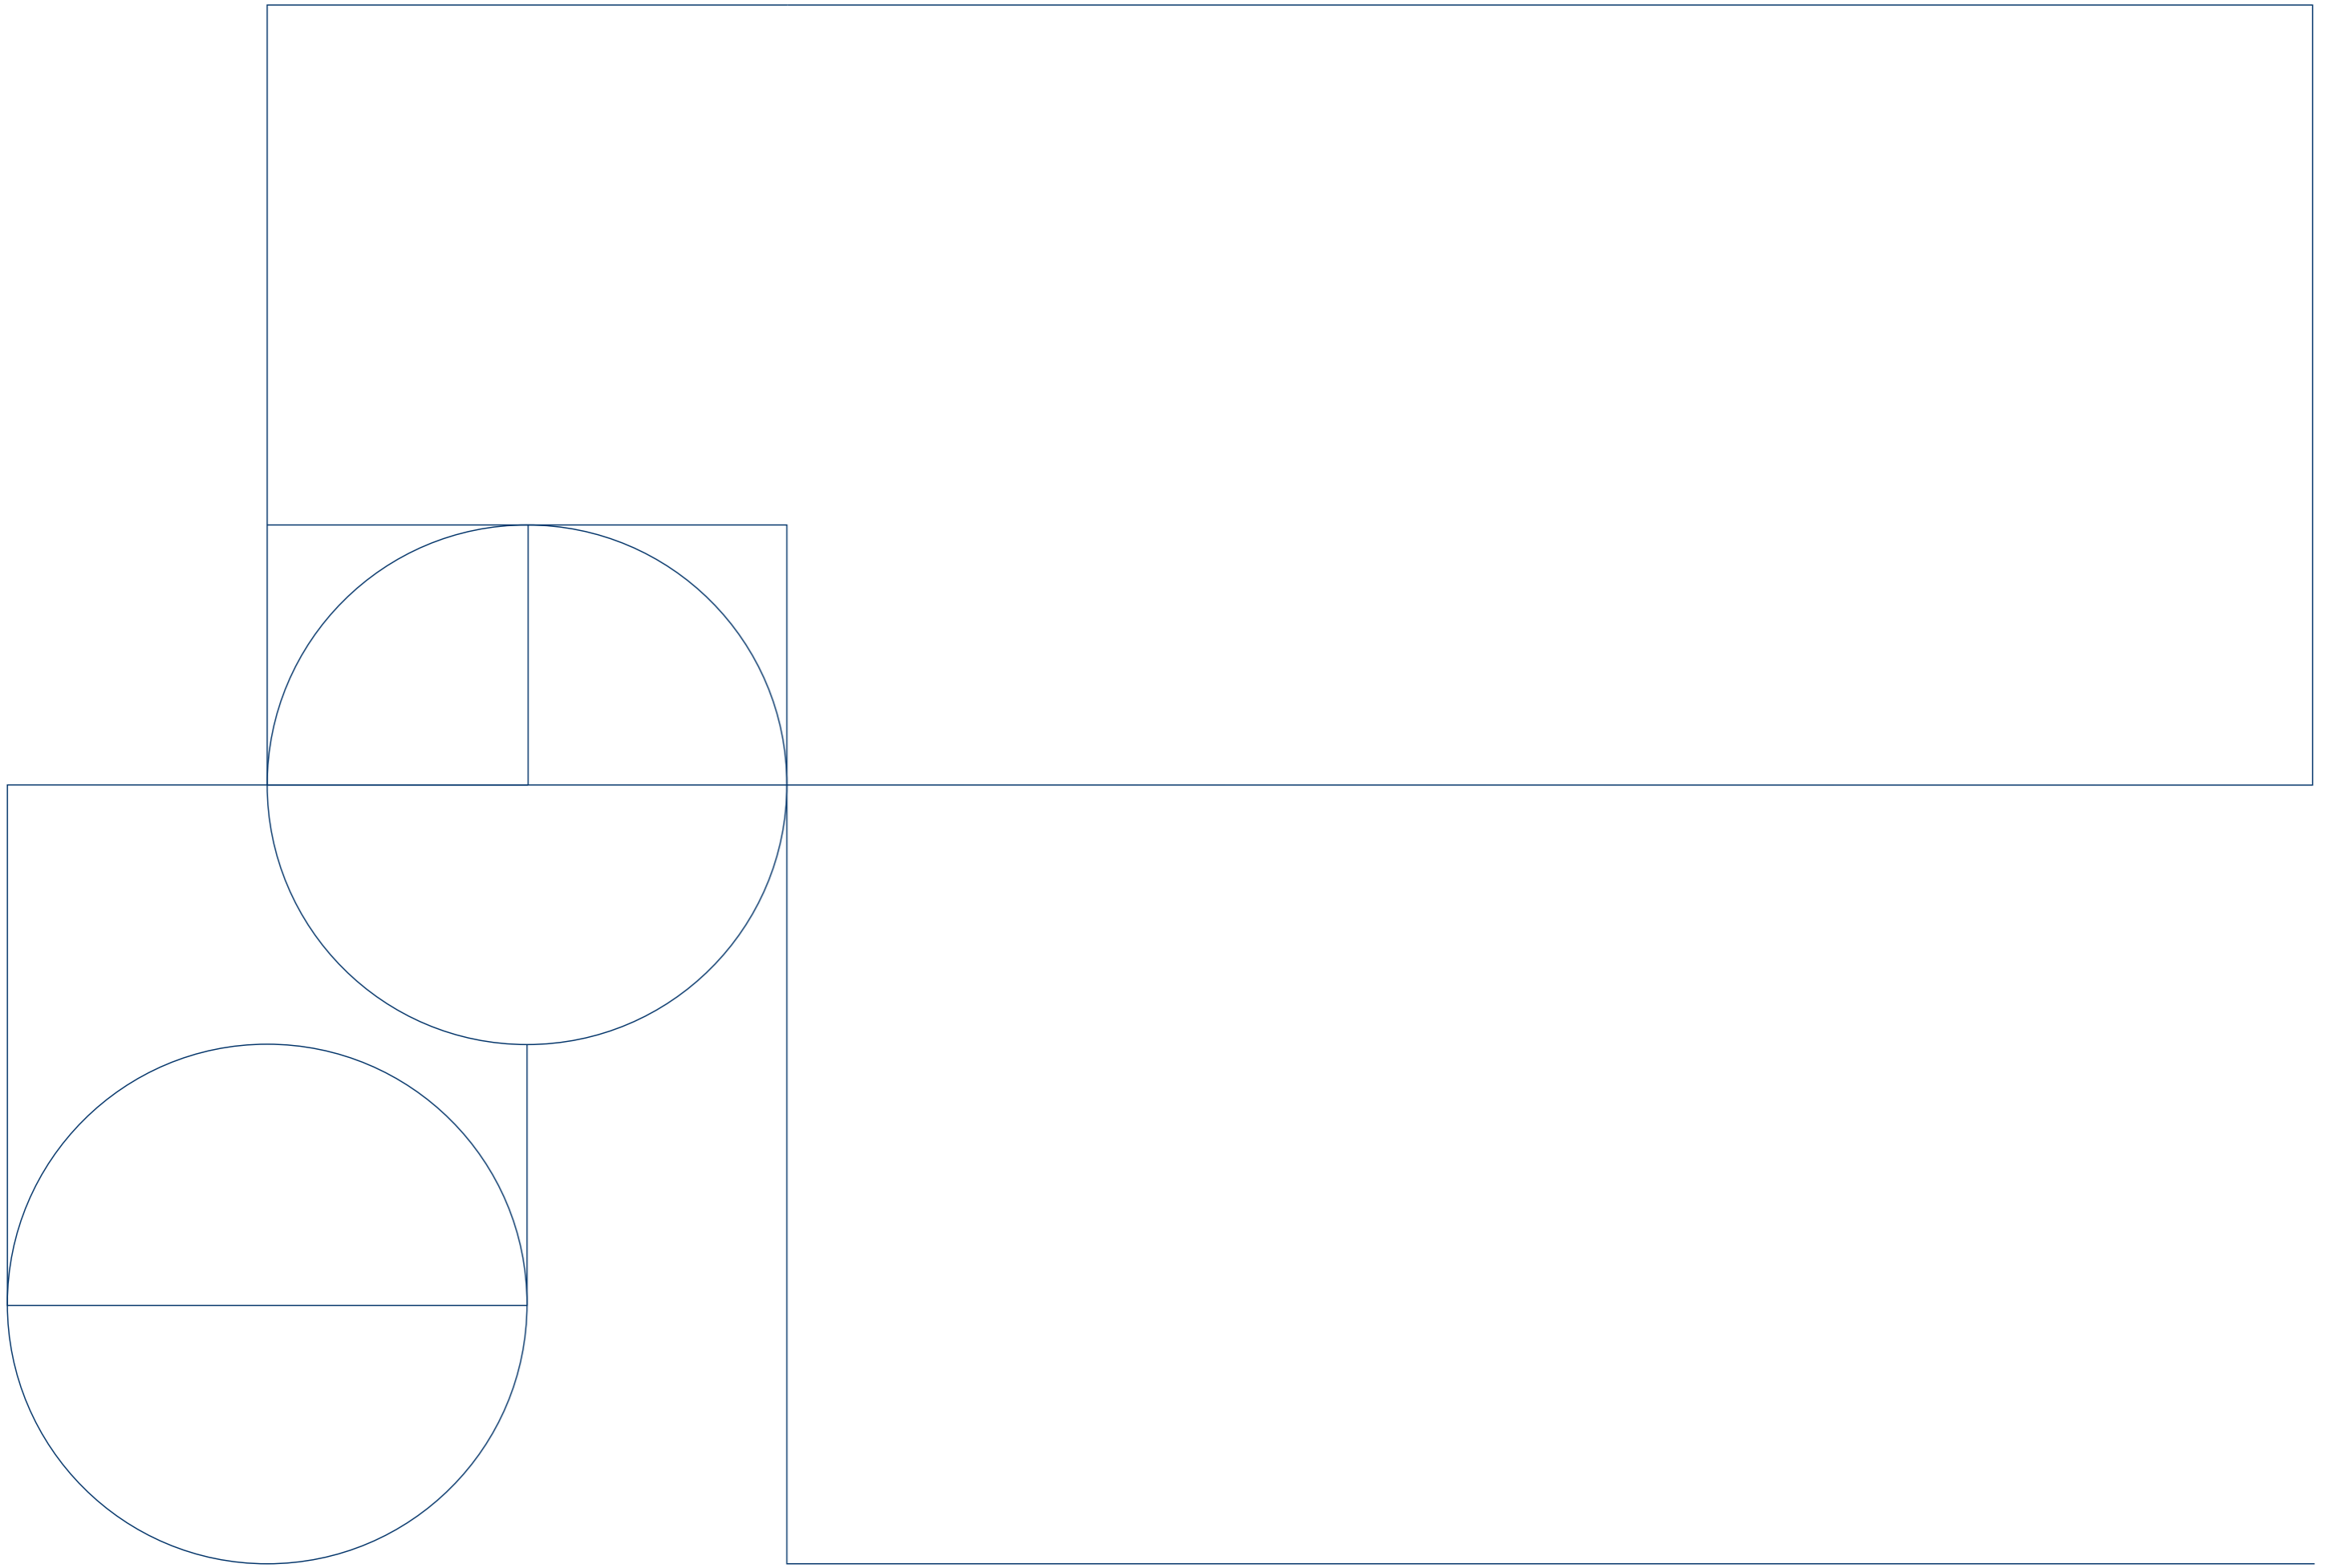

Use furniture to create zones within a room - ie a reading corner that receives the morning light

Consider chairs with arms for ease of use. This applies to both dining and lounge chairs

Think about your functional requirements

Consider retaining special pieces

You don't have to choose between aesthetics and comfort

Have fun!

THANK YOU!
